	C&E: Community and Environment

The top 100 companies are ranked according to their overall scores. When more than two companies have the same score, the ranking is based on a differential of decimal points that are not shown in this table, resulting in one company being ranked over the other. However, in this list, two companies do have the exact same extended score -- Colgate Palmolive and Grupo Nutresa – which ranks both companies as #35 causing the list to appear to have 99 rows. Colgate is listed first alphabetically.
